THE MCMASTER SCHOOL FOR ADVANCING HUMANITY

The McMaster School for Advancing Humanity was founded to serve as a focal point for teaching, service, scholarship, and action to improve the human condition worldwide. The mission of the McMaster School is:

- ◆ To educate students for responsible citizenship;
- ◆ To produce committed global citizens and leaders who understand the importance of individual liberties in improving the human condition worldwide; and
- ◆ To encourage graduates to take an active role in addressing these issues in whatever professions they may choose.

The School serves as a catalyst for innovative, interdisciplinary, community-based work by creating and supporting opportunities for teams of faculty, students, and staff to use their academic and professional skills to address a community need.

The founding goals of the McMaster School are:

1. To critically examine the root causes of human suffering through community-based research that addresses systemic factors that impede human progress;
2. To give students the knowledge and capacities to be active world citizens and to view themselves as members of the world community;
3. To contribute actively through sponsored scholarship and service to the improvement of the human condition worldwide;
4. To exchange, create, and disseminate knowledge about successful models of active citizenship and public service; and
5. To create at Defiance College one of the nation's premier undergraduate educational programs with a focus on scholarship and service, with a special emphasis on developing an innovative approach to teaching.

THE FOUNDING DONORS

The McMaster family has been an instrumental force in business, industry, and civic involvement in northwest Ohio for many years. Harold and Helen McMaster together with their sons and daughters – Ronald McMaster, Jeanine Sandwisch Dunn, Nancy Cobie, and Alan McMaster – established the School through a generous endowment to Defiance College in 2002. Although Harold McMaster died in 2003, his legacy – a belief in an individual's potential to positively impact humanity through scholarship, leadership and service – lives on through the McMaster School for Advancing Humanity.
