

# GUIDELINES FOR REPEATING COOPERATIVE EDUCATION

---

Since the objective of Cooperative Education is learning, persons who are continuing a cooperative education experience in the same location must submit documentation that new learning will take place. Therefore, the following items must be submitted:

1. An updated résumé which includes the previous cooperative education experience.
2. A list of new objectives initialed or signed by the faculty supervisor.

When the above materials have been submitted and approved by the Director of Cooperative Education, you will receive a 'PERMIT TO REGISTER' form. This must be signed by the faculty advisor, the cooperative education work-site supervisor and then by the Director of Cooperative Education.
